SOUTHERN OREGON CROP REPORT.

Table Rock.—Week very warm. The bulk of the grain crop has been cut and thrashing will commence next week; the second crop of alfalfa is being cut and is not up to the average; condition of corn much better.

Williams.—The past week has been very warm; grain plump and heavy; some in stock; potatoes look well where irrigated; those not irrigated need rain; hops and corn doing finely.

Glendale.—The weather has been very warm, with strong southwest winds. Haying is about finished; grain turning color, with full heads; some damage was noticed to fruit the windstorm of the 14th; spring-sown grain doing well.

A GRUESOME PROPHECY.

A Gipsy fortune teller, whose presence is lost to us through special request of the authorities, has put forth the cheerful word that the town would take fire and burn up utterly on Wednesday, July 30. As it is freely stated that she predicted the other fire, the insurance business has been quite brisk for the past few days. The old lady, it seems, can see as far into the future as other folks can through a ladder and has a special eye for confagurations. The calamity has not yet occurred as we go to press.

EXCITING BALL GAME.

On Friday last the base ball game between the hardware men and iron workers and the business and professional men took place at the all grounds. The attendance was good and the game was lively and full of interest. The hardware team carried a large percentage of stalwart players, while their opponents were mostly light weights, though T. B. Cornell did what he could to bring the team up to the average weight. The latter team being composed mainly of the younger clerks, more recent players, it was thought by many that they would have a walk-over with their older opponents but the result did not justify this assumption.

The hardware men went first to the bat and began immediately to swat the sphere with great vigor, while the ball proved elusive to the fielders. At the close of the third inning the score stood 10 to 2 in favor of the hardware team. The "software" men then steadied down and played better ball but were unable to prevent their opponents from increasing the strong lead already gained. Several spectacular plays were made and the game was a highly entertaining one to the beholders. The final score was 18 to 6 in favor of the hardware men. Following are the respective lineups:

Hardware	R	O
Geo. Cameron, cf	1	4
Tom Harvey, c	3	0
Evan Wimer, rf	3	4

The net proceeds of the game amounted to about \$30 and were given for the benefit of Roger Enten.

A CARD OF THANKS.

The sincere thanks of the First Baptist Church, Grants Pass, Oregon, are hereby tendered to the citizens of our city for the many expressions of kindly sympathy with us, in the loss of our beautiful home of worship, by the recent disastrous fire; also, to the pastors and officers of the following churches: Bethany Presbyterian, Newman M. E., M. E. South, Christian and Seventh-Day Adventists, for their generous offers of their own places of worship to us, in this time of our need.

May the blessings of the Lord, which maketh rich and addeth no sorrow, be upon you all.

In behalf of the First Baptist church, Grants Pass Oregon.

Robert Leslie, pastor,
 Arthur Conklin,
 Committee.

TEAM AND BICYCLE.

A collision occurred on Saturday between a lively team driven by Arthur Conklin and A. H. Lewis on a bicycle, at the crossing between Coe's store and the Josephine. Each mistook the others intended direction and so ran together. Mr. Lewis sustained some injuries but was not seriously hurt and is improving rapidly. The wheel was quite badly wrecked.

HELD FOR FORGERY.

A young man named Geo. D. Young, who lives on Evans creek was arrested this week on the charge of forgery. He is accused of having forged the names of Judge Hill of Evans creek and Mr. Burnett of Ashland on a note which was presented at the First National bank in Grants Pass. Young waived his right to a preliminary trial and is held in jail in this city until the next term of court. He is a young man and is married, which makes the case a pathetic one.

ROAD SURVEY.

The survey was made this week for a new county road between Grants Pass and Jump-off-Joe, by way of the Horse creek divide. This road will materially shorten the distance between Grants Pass and the upper Grants Pass country.

DIED.

BARTON—In this city, Monday, July 28, 1902, Mrs. H. H. Barton, aged 60 years.

Mrs. Barton was born at Ft. Edward, N. Y., May 2, 1842. Her maiden name was Anna Taylor. Her husband was H. H. Barton at Ft. Edward in 1866. They afterwards removed to Greeley, Colo., where they resided for several years and later came to this city which has been their home for the past 13 years. She leaves a husband, H. H. Barton and one daughter, Mrs. H. C. Bobzien. Her loss is mourned by a wide circle of friends in this city. The funeral services were held on Tuesday at the Barton residence by the order Eastern Star, Rev. C. W. Hays conducting the ceremonies.

IMPERSONATED TRACY.

William Nixon, of the disorderly district of Seattle, tried to win a woman's affection in the guise of Outlaw Tracy, and is nearly dead as the result of his foolhardy act. He told an actress in a music hall that he was none other than the famous desperado, and threatened her life if she told. He made her buy him drinks and promise to supply him with money. Saturday night, when he entered the theater, he was attacked by a policeman, and the proprietor, Joe Williams, a brother of Deputy Sheriff Jack Williams, who was wounded in a battle with Tracy at Bothell, July 3. He was pounded into insensibility, and has not fully regained his faculties yet. The mistake was discovered when the man's features were compared to those of a photograph at police headquarters. It is almost a miracle that the policeman did not shoot first and investigate afterwards, as he was told positively that the man was Tracy and a reward of nearly \$7000 is offered for the desperado, dead or alive.

QUANTITY, NOT QUALITY.

We often hear that quality, not quantity, should be considered, but in R. L. Coe & Co.'s big ad in our last issue it was quantity, not quality that was under consideration, in the statement that the "quality was limited." The mistake is the printer's, who is prone to cry, being human. The quality of Coe's goods is never limited. It is ample and generous and the best proof of this fact is the manner in which his magnificent mercantile establishment has grown out of the little store on F street in which Mr. Coe first started in business in Grants Pass.

NEWMAN M. E. CHURCH.

Rev. J. H. Coleman D. D. president of the Willamette University, will preach at Newman M. E. church Sunday morning and also, at the Union service in same church in the evening. Dr. Coleman is a preacher of unusual ability, a popular lecturer and has been a great success as a pastor and providing elder. He has occupied the leading pulpits of his conference in such cities as Albany, Troy, Saratoga Springs and others in the empire state. You will miss a great rare treat if you fail to hear this eloquent preacher. Come and you will be made welcome.

J. W. McDougall.

CARD OF UNTHANKFULNESS.

Bert Williams says that we might say in our paper that, instead of thanking the people for what they did for him at the fire, he "damns" them more or less. His building at the corner of Front and Fourth streets was torn down, unceremoniously, as it proved. He petitioned the council to indemnify his loss, which request the council denied.

OREGON MAN IN CHILE.

Edward E. Muecke, a prominent young business man of Iquique, Chile is spending a few weeks in Oregon, visiting his parents at Astoria, says the Oregonian. Mr. Muecke once lived at Astoria, where he engaged in the general merchandise business, but being anxious to see something of the world, struck out for South America to seek a fortune. He left Oregon some seven years ago, and after traveling through Chile, settled at Iquique, a seaport town in the southern part of the country. Here he built up an extensive business, and is today one of the most influential men in Southern Chile. He is American Vice-Consul at Iquique, and is resident agent for several German steamship lines and a number of large American concerns. Iquique, a city of 20,000 inhabitants, is famous as a nitrate center. The nitrate mines, which are located a few miles from the city, produce annually about \$3,000,000 pounds of nitrate, which is shipped to foreign countries for use. Mr. Muecke was in the city yesterday, and when seen by an Oregonian representative, said:

"The isthmian canal problem is of great interest to the western coast of South America, as the completion of such a canal will give an direct connection with the markets of the world enabling us to reach the seaports of North America and Europe in less than half of the time now required. All along the Pacific coast of South America is heard a demand for the canal, the Panama route being the favorite. On my way to Oregon I came by way of the isthmus and New York, the trip requiring more than three weeks. I passed directly over the half-finished canal on the isthmus, and saw the ruins of thousands of dollars worth of machinery. It will take a great amount of money to finish that canal, but the investment will prove a profitable one, and a benefit to the whole Western Hemisphere. I would advise any ambitious young man to go to South America, as there is plenty of money there for those who are willing to work and abandon the blessings of dear old America."

HOMICIDE NEAR KLAMATHON.

J. A. McDonald, a saloon keeper on the route of the Klamath river railroad, shot and killed Henry Hoover and Edward Loucks one day last week. Hoover, as a joke, drove off with McDonald's buggy, and McDonald in anger, shot through the back of the buggy, the bullet taking effect in Hoover's head, causing instant death. Loucks stepped into the buggy to get help for Hoover and was also shot by McDonald. He lived a few days after being shot. After the shooting McDonald went to Yreka and gave himself up.

GRANTS PASS—THE CITY

Of Southern Oregon, Will be the Coming Mining Center of Oregon.

"If Josephine county with its present gold discoveries, was in the far north and surrounded by ice-beds, it would not hold the crowd of people that would stampede to it in a few months." So spoke C. B. Bishop, a prominent mining man of Spokane, in a conversation in Grants Pass one day this week.

"The Grants Pass district is to be the coming mining section of the coast," continued Mr. Bishop, "capitalists and mining men from everywhere are turning their attention this way and the dist. lot is bound to become an important one."

"What do you think of the Josephine mining section? Mr. Bishop was asked.

"I think it is all right. The mines you have opened up here are excellent propositions. What is needed is more of them. Capital, to develop the many properties is Josephine's greatest need."

In speaking of the climate here, Mr. Bishop said:

"I have felt better since being in Grants Pass than I have for years past. The climate here cannot be surpassed."

Mr. Bishop, in company with S. Rodin are here from Spokane and are making investigations of the Josephine mines with a view to investing.

NOW IS THE APPOINTED TIME.

The O. R. & N. Co. has just issued handsomely illustrated pamphlet entitled "Oregon, Washington & Idaho and their resources." People in the east are anxious for information about the Pacific North-West. If you will give the O. R. & N. Co. agent a list of names of eastern people who are likely to be interested, the booklet will be mailed free to such persons.

RAILROAD STRIKES COAL.

A coal strike that promises to make no little stir in this section has been made near Astoria, in the northern part of Jackson county, where the Southern Pacific company has been developing a prospect. Six steam drills have been at work and a force of 17 men employed in the work. The tunnels were driven into the ground 20 feet and a vein of good steam-coal six feet wide was struck. The R. R. company owns considerable land in the vicinity and has bonded a large tract adjoining that upon which the strike was made.
